Qwirkle is as basic as matching colors and shapes! Well-planned strategy is the key to victory!

Qwirkle consists of 108 wooden tiles with 6 shapes in 6 colors. Each tile is worth 1 point. Players score points by building lines of tiles that share a common color or shape. Score a "Qwirkle" by completing a line of 6 and receive double points for each tile in the line. The player with the highest score at the end of the game wins!

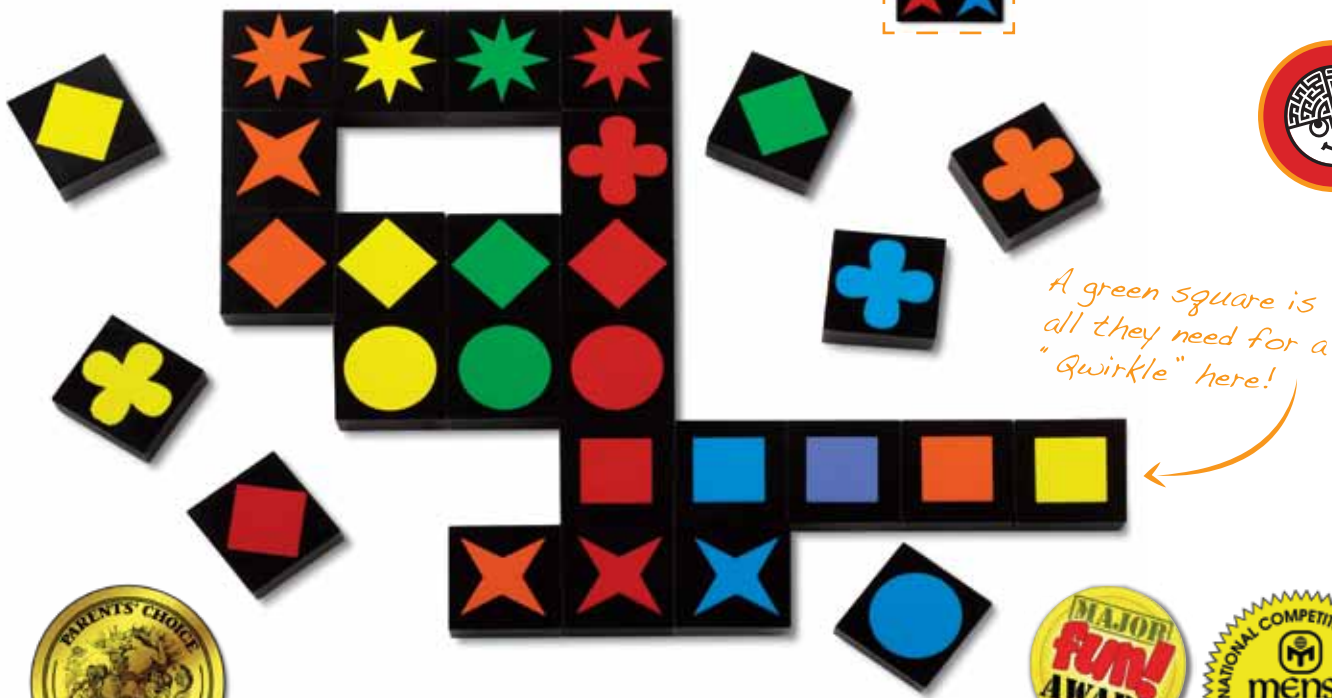

Sara starts a line of RED in the opening move. She scores 4 points!

Brandie builds a SQUARE line off of Sara's RED line. She scores 3 points!

Angie adds to the RED line and to the BLUE line to start an X line! She completes the RED line for a "Qwirkle" and scores 16 points!
