# Skippity™

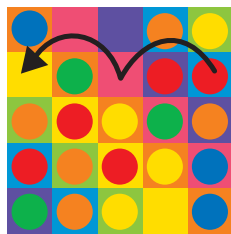

Case Pack: 6  
Sku: 48146W

Jump to capture. Stack to win.

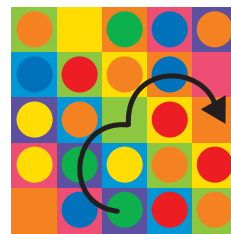

Family fun is just a hop, skip and a jump away! To begin the game, fill the board with the colorful skippers and start jumping! Your goal is to collect the most SETS of skippers by jumping over the colors you need and blocking your opponents from doing the same. A "set" is complete when you have one skipper of each color. Any skipper can be your jumping piece and you jump on every turn. Easy to learn and fast to play!

Sara uses the green skipper to jump & capture the orange skipper.

Brandie uses the red skipper to make multiple jumps to capture the red and green skippers.

Angie uses the green skipper to make multiple jumps vertically and horizontally to capture the yellow and red skippers.

*The key is to even out your stacks! The player with the most complete sets wins!*

**1 Set = 1 of each color**

## Product Reviews...

"The whole family has enjoyed it! I was afraid it was another 'checker-style' game but was wrong. Great strategy and spatial awareness development!"

"What's not to love? This game is so colorful, and you always get to jump! Simple enough for the young, interesting and strategic enough for the old. I highly recommend!"

"This game is great fun! Everyone from my 7 yr old to my 82 year old father has loved it. It involves strategy and we can't stop playing it. Definitely a game to buy and keep!"
