

# contraptions

Case Pack: 6  
Sku: 48001W

**50**  
Planks &  
2 KEVA® Balls

No glue, no connectors just simple stacking of precision pine planks!  
With the Contraptions 50 piece set, you can build 6 new action-packed structures that make the ball bounce, roll and twist through your creations! Check out the instruction book for new tips and ideas to invent your own contraptions!

## GREAT Reviews!

"Grandson got this for 6th birthday, stopped everything to play with it with 2 friends. They spend hours testing and building. It offers lots of creative construction, without set projects to follow certain rules." - Katharine

"My nephew likes to play video games and I wanted to get him something a little more physical than DSI games. This was the trick. He loved it and spends hours working with it." - Amy
