Colorful gnomes need to get to their homes. Can you create their paths? Connect gnomes and homes of matching colors using vertical and horizontal lines. But watch out— these mind-bending maze puzzles are not your garden variety brainteaser! Create an incorrect pathway and you'll have to retrace your steps, because none of the paths can intersect!

GREAT Reviews!

"My 9-year-old daughter loves these! She takes the box with her in the car and even wants to work on them before bed. Making a mistake is no big deal because of the dry erase marker."

"These puzzles are great fun and really get our minds working. Addictive!"
